The financial results of LVSC and its consolidated subsidiaries, including those contained in the Quarterly Financial Results, the Earnings Call and the Chart Deck have been prepared in accordance with the generally accepted accounting principles of the United States (“US GAAP”), which are different from the International Financial Reporting Standards (“IFRS”) that we are subject to when preparing and presenting our stand-alone financial results and related financial information. As such, the financial results and related information set forth in the Quarterly Financial Results, the Earnings Call and the Chart Deck are not directly comparable to the financial results and related financial information that our Company discloses as a company listed on the Main Board of The Stock Exchange of Hong Kong Limited. In particular, Average Daily Rate (“ADR”) and Revenue Per Available Room (“RevPAR”) as presented in the Quarterly Financial Results, the Earnings Call and the Chart Deck are based on gross room revenues as reported under US GAAP, which include associated promotional allowances within room revenues. Under US GAAP, promotional allowances are then deducted from total gross revenues in presenting net revenues. Under IFRS, room revenues exclude such promotional allowances. Our shareholders and potential investors in our ordinary shares are advised that the consolidated financial results and related financial information set forth in the Quarterly Financial Results, the Earnings Call and the Chart Deck with respect to our Company’s operating results have not been prepared or presented by our Company, and there is no indication or assurance from our Company that the financial results and related financial information of our Company will be the same as that presented in the Quarterly Financial Results, the Earnings Call and the Chart Deck.

To ensure that all shareholders of and potential investors in our Company’s ordinary shares have equal and timely access to the information pertaining to our Company, set forth below are extracts of key highlights of the financial results and related financial information published by LVSC in the Quarterly Financial Results, the Earnings Call and the Chart Deck that relate to our Company and our operations in Macao:

Quarterly Financial Results Extracts

Fourth Quarter and Full Year Overview

The Board of Directors of Sands China Ltd., the company’s majority-owned subsidiary which owns and operates the company’s Integrated Resort properties and other assets in Macao, declared on January 31, 2011 a dividend of HK\$0.58 per share which is expected to be paid to Sands China Ltd. shareholders on or about February 28, 2012 to shareholders of record on February 20, 2012.

In Macao, we experienced higher gaming volumes across our property portfolio, while adjusted property EBITDA reached a record US\$434.2 million and adjusted property EBITDA margin expanded to reach a market-leading 33.4%. The consistent growth of our higher margin mass table and slot businesses, together with the contribution from the important non-gaming (hotel, retail, mall and convention) components of our Integrated Resort business model, continue to drive revenue and EBITDA growth. We are also pleased to report that the initial investments we have made to expand our offerings in the VIP segment are clearly evident in our quarterly operating results, with the Four Seasons Hotel Macao and Plaza Casino generating a record quarterly EBITDA of US\$63.0 million and increasing its Rolling Chip volume by 63.9% compared to the same quarter last year. We expect to realize additional benefits from our initiatives in the VIP segment in the quarters ahead, as we roll out additional enhanced VIP facilities and service offerings throughout our existing property portfolio in 2012.

We are extremely excited to be approaching the debut of the largest Integrated Resort development in the company's history, Sands Cotai Central, the first phase of which will open approximately eight weeks from today. Located at the center of the COTAI Strip and directly across from The Venetian Macao and the Four Seasons Hotel Macao and Plaza Casino, the 13.7 million square foot Integrated Resort will add substantial scale to the COTAI Strip and will feature amenities and attractions designed to broaden and deepen Macao's appeal as a destination for business and leisure travelers. Importantly, Sands Cotai Central will feature at completion more than 6,400 hotel rooms, which are a vital component for the future growth and continued maturation of the meetings, incentive, convention and exhibition business in Macao. We are confident that Sands Cotai Central will meaningfully contribute to important multi-night business and leisure visitation to Macao and will provide another strong platform for growth for our company.

Sands China Ltd. Consolidated Financial Results

On a GAAP basis, total net revenues for Sands China Ltd. increased 22.0% to US\$1.33 billion in the fourth quarter of 2011, compared to US\$1.09 billion in the fourth quarter of 2010. Adjusted property EBITDA for Sands China Ltd. increased 29.2% to US\$430.1 million in the fourth quarter of 2011, compared to US\$332.8 million in the fourth quarter of 2010. Net income for Sands China Ltd. increased 43.8% to US\$306.7 million in the fourth quarter of 2011, compared to US\$213.3 million in the fourth quarter of 2010.

The Venetian Macao Fourth Quarter Operating Results

The Venetian Macao continues to enjoy strong visitation and financial performance. The property delivered record adjusted property EBITDA of US\$283.3 million for the fourth quarter of 2011, an increase of 20.2% compared to the fourth quarter of 2010. Adjusted property EBITDA margin was a record 37.1%, an increase of 150 basis points over the fourth quarter of 2010. The Venetian delivered solid growth in gaming volumes in each segment of the business. Non-Rolling Chip drop was a record US\$1.10 billion for the quarter, an increase of 14.4% compared to the same quarter last year, while Non-Rolling Chip win percentage was 28.2%. Rolling Chip volume during the quarter increased 14.8% to a record US\$13.55 billion. Slot handle was a record US\$1.07 billion, an increase of 52.2% compared to the quarter one year ago. RevPAR increased 14.1% to a record US\$234 due to higher ADR and occupancy.

Sands Macao Fourth Quarter Operating Results

Sands Macao's fourth quarter operating performance reflected the Sands' healthy competitive positioning on the Macao peninsula and the growth in the Macao market overall. Gaming volumes were stronger across the board and adjusted property EBITDA was US\$87.8 million in the quarter. The operating results were negatively impacted by lower Rolling Chip win percentage compared to the fourth quarter of 2010. Adjusted property EBITDA margin was 27.4% for the quarter, compared to 29.3% for the year-ago quarter. Rolling Chip volume reached US\$7.61 billion for the quarter, an increase of 1.3% compared to the fourth quarter of 2010. Non-Rolling Chip drop increased 2.7% to US\$687.2 million, the strongest performance since the first quarter of 2008. Slot handle increased 57.5% to a record US\$621.0 million.

Earnings Call Extracts

Mr. Sheldon G. Adelson, Chairman and Chief Executive Officer of LVSC, announced that:

For our company, 2011 was a landmark year in which we broke company records (and at the same time we believe most industry records) for revenue, EBITDA and earnings per share. I want to walk you through a more detailed look at the previous quarter — which includes record results in Macao and Singapore and incredible growth in our mass gaming, hotel and retail businesses — but first let me provide some additional perspective on 2011 and share my thoughts on where the company is headed in 2012.

...These overall results also reflect another substantial accomplishment. In another industry-first, we had two properties, in two different markets — Marina Bay Sands in Singapore and The Venetian in Macao — that both produced EBITDA in excess of one billion US dollars. In fact, every single one of our properties saw meaningful percentage increases in EBITDA in 2011 when compared to 2010.

We expect to build on our success in 2012 and that effort starts with the opening of Cotai Central, which will happen just about two months from now. Cotai Central represents an important next step in the maturation of Macao as a leisure and business destination. The additional room capacity provided by the nearly 6,000 rooms we will open over the course of the year, along with a wide-variety of non-gaming attractions and amenities, will help Macao continue to build even further on its fast-growing tourism sector. We believe there are three important components to long-term growth in Macao: transportation infrastructure development, which is being enhanced as we speak; hotel room inventory, which of course we will be meaningfully contributing to with the opening of Cotai Central; and lastly, the continued growth of the Chinese urban population, who equipped with sufficient disposable income will visit Macao and significantly expand on the record 28 million tourist arrivals that occurred in 2011. So, it goes without saying, the opening of Sands Cotai Central is an important catalyst to what we expect to accomplish in 2012.

For a review of our operating results, let me start in Macao where the properties operated by our majority-owned subsidiary, Sands China Ltd., turned in — as you can guess — record results. Our adjusted EBITDA for Macao property operations was US\$434 million for the quarter — an impressive 27 percent increase from last year's fourth quarter.

At The Venetian Macao, EBITDA for the fourth quarter of 2011 was a record US\$283 million, an increase of 20 percent over last year's fourth quarter and EBITDA margin was a record 37.1 percent. On the gaming side of the business, rolling chip volume (VIP) was a record US\$13.6 billion, an increase of 15 percent compared to the same quarter last year. Non rolling chip drop (mass market) also increased nearly 15 percent to a record US\$1.1 billion and slot handle increased 52 percent versus last year's fourth quarter and was a record US\$1.1 billion.

The legend of The Venetian Macao continues to grow and it clearly remains Macao's most-visited destination. The growth in non-gaming revenues was significant during the fourth quarter of 2011. Food and beverage revenue increased 30 percent; room revenue increased 15 percent; mall revenue was up 35 percent and additional non-gaming areas, such as convention revenue, were up 32 percent when compared to the fourth quarter of 2010.

At the Sands Macao, adjusted property EBITDA was US\$88 million for the quarter. Non-rolling chip drop was US\$687 million and rolling chip volume was US\$7.6 billion, both were increases versus the same quarter last year. Slot handle at the Sands increased 58 percent to a record US\$621 million.

Finally, the initiatives we have undertaken over the past several months to improve our VIP business in Macao are now bearing significant fruit. Evidence of that success is reflected in this past quarter's results, where rolling chip volume at The Plaza casino at the Four Seasons increased 64 percent over the fourth quarter of last year and was a record US\$7.5 billion. The property also had its best EBITDA quarter ever, recording US\$63 million over the three-month period. Slot handle at the Plaza casino reached US\$244 million, up 82 percent versus Q4 of last year. As with The Venetian Macao, non-gaming revenue sources all saw significant increases over last year, specifically the Shoppes at the Four Seasons where mall revenue increased 54 percent over the same quarter last year and was a record US\$24.5 million.
